Community Helpers

Our classroom turned into a mini community as children wore caps of different community helpers and proudly pretended to do their roles. They learned about the important work of doctors, police, teachers and many more. The activity helped them understand how each helper serves society and keeps our community safe and happy. It was a fun-filled learning experience that built respect, confidence and teamwork among the kids.

Literacy skills

Introduction of Letter 'Ww'

Our little learners participated in an activity to learn the wonderful letter 'Ww' which walked into our classroom with wiggly lines and a happy sound, "wuh-wuh!" Children explored W words like *water*, *whale* and *watch*, saying them aloud with excitement. With smiles and curiosity, they welcomed Ww and practiced its sound in a fun and playful way.

Bubbly Nursery

Mathematical skills

Introduction of Numeral 9

The playful numeral 9 came to class with a curly tail, ready to shine and count! Children traced, counted and found groups of nine through fun objects and activities. With smiles and excitement, they discovered that 9 is a big number full of learning and fun.

Numeral 9 Printing

Our little stars enjoyed numeral 9 printing activity. They used the numeral 9 cutout to create fun prints on paper. They dipped the cutout in colours and stamped it carefully to form bright number 9 patterns. This hands-on activity helped them recognize the shape of 9 while enjoying art and creativity. The classroom was filled with colourful prints and happy learners exploring numbers in a playful way.

Water – Uses, Importance and Source

This week our Jr. KG students learned about sea, ocean, lake and pond through an interesting and colorful video. The video showed real pictures of different water bodies, which made the topic easy and exciting for the little learners. Students understood that seas and oceans have salty water, while lakes and ponds usually have fresh water. The video made learning joyful and helped children remember the differences easily.

Sources of
water are
gifts of
nature!"

Literacy

Introduction of 'et', 'en' Words

Our Jr. KG students were introduced to the -et and -en word families through a fun and engaging Word Wheel activity. The teacher showed a colorful word wheel with endings "et" and "en" in the center. Children rotated the wheel and added different beginning letters to form new words. They happily made words like pet, net, jet, wet from -et and pen, hen, ten, den from -en.

Mathematical Skills

Measuring Capacity

This week Jr. KG students explored capacity in a fun and sensory way using sand and balance buckets. The teacher placed two small buckets on a balance. Children filled one bucket with sand using small cups and spoons. Then they slowly added sand to the other bucket and observed which side went down (heavy) and which side stayed up (light).

GLIMPSES OF THE WEEK

Octopus Race

Our little learners excitedly participated in the Octopus Race. The students were divided into four groups, and each group stood in a line holding each other's hands tightly like the tentacles of an octopus. On the teacher's signal, each group walked together towards the finish line. This activity helped children learn teamwork, balance and coordination in a joyful way. Everyone had lots of fun moving like a happy octopus.

GLIMPSES OF THE WEEK

Water Solubility Experiment

This week Jr. KG students enjoyed a simple Water Solubility Experiment. Students observed what happened when different materials like salt, sugar, sand and oil were added to water. They saw that salt and sugar dissolve in water, while sand and oil do not dissolve. Through this hands-on activity, students learned the meaning of soluble and insoluble in a very easy and interesting way. The experiment encouraged curiosity, observation skills and early scientific thinking in our little learners.

Invention of clock

This week, our children are learning about clocks and how they have changed over time. They will explore different types of clocks, including: Sundials, Analog clocks, Digital clocks and Smartwatches. The children learned how people in the past told time using the sun; and how inventions gradually improved over the years to help us measure time more accurately and conveniently. They also discovered how each new invention was created by improving the way we tell and manage time.

मात्रा वाले शब्द

इस सप्ताह कक्षा में विद्यार्थियों को आ, इ, ई, उ, ऊ की मात्रा वाले शब्दों का पहचानकर सही मात्रा वाले शब्द के स्थान पर रखना था। जिसके अंतर्गत विद्यार्थियों ने शब्दों का मौखिक अभ्यास किया और मात्राओं की पहचान की। विद्यार्थियों ने बड़े उत्साह के साथ इस गतिविधि को पूरा किया।

Thank you

Dear Parents,

We believe that learning becomes more meaningful when children experience it from real-life masters. We would love to invite you to be a part of our school's vision, "Parents as Masters" initiative. If you have a special talent, hobby, profession, or life skill—such as art, music, dance, storytelling, yoga, cooking, science experiments, craft, gardening, technology, or any other area—you are most welcome to share it with us. Your contribution will inspire children, enrich their learning journey, and strengthen the bond between school and parents. Kindly contact the Coordinator for more details.
